

1. Katherine Daniels homecare products are available from Appointed Salon and Spa Stockists.
2. We strongly **recommend** that you continue to visit your Katherine Daniels Therapist for regular skin analysis and in-salon Katherine Daniels Professional treatments along with the regular and continued use of Katherine Daniels homecare as prescribed by your Katherine Daniels Therapist.

This allows a Katherine Daniels skincare professional to regularly analyse your skin and make accurate personalised treatment and homecare prescriptions to ensure your skin is treated correctly.

3. We **do not** recommend any use of any of the Katherine Daniels homecare products without a current and up to date skin consultation and prescription by your Katherine Daniels Appointed Therapist.

**We do not** recommend buying Katherine Daniels products from any internet auction or discount site. Products found on these sites are not from an Appointed Katherine Daniels stockist and as such, many products are out of date, active ingredients degraded, are usually unsuitable and, in some cases, even partly used or fake.

**No warranties or guarantees** for skin type or product suitability are given for Katherine Daniels homecare products without a patch test and current Katherine Daniels homecare prescription from your Katherine Daniels Therapist.

4. We offer skin analysis and consultation FREE of charge.  
Please phone for an appointment or ask for your "Katherine Daniels Homecare Prescription" at your next salon visit.
